

Empowering You To Achieve Security Excellence For Over 30 Years

Our Think Like a CEO Approach

We teach security professionals to understand the bigger picture

When your team learns the business impact of the security concepts covered by the certifications, it not only makes these challenging exams much easier, but also helps them make strategic decisions that serve the organization best. This isn't just exam prep based on memorizing information. This is professional development that transforms your team's ability to drive the security function.

93.6% First-Time Pass Rate

No rescheduling. No extra exam fees. No wasted time reviewing material they should've already mastered. Your team will earn their certifications without the stress and disruptions most people experience when getting certified.

What Security Leaders are Saying:

"I wanted to reach out & say thanks again for the class you presented for the Target cohort two weeks ago, of which I was a part. The boot camp gave me the confidence, direction, and cognition to test out after months of slow, unfocused self-study."

— George J., CISSP, Target

"One word, Fantastic. The way you both are able to break down the topics into succinct understandable information is impressive. I have sat in one other CISSP Bootcamp before where the instructor essentially had us highlight lines in the book for 5 days straight. As I stated above, the practice question walkthrough was great. I can tell you, I THOUGHT, I was reading questions correctly. I THOUGHT I wasn't thinking too technical. But the walkthrough gave me proof that I wasn't and completely changed my mindset."

— Adam D., CISSP, Deloitte

"Thank you both so much for your instruction and passion in delivering the CISSP course material. It is rare to find people who have such vast knowledge and experience, as well as a commitment to education and furthering the profession. Your advice and guidance was definitely the only way I could have passed the CISSP exam, especially in such a short time frame."

— Robby B., CISSP, Scotia Bank

Trusted by Enterprise Leaders

Why Smart Security Leaders Choose Destination Certification

Nearly all of our students say our BootCamps and MasterClasses were the best they've seen in the industry. They specifically thank us for making it easy for them to understand how even the most complex topics work in practice.

Minimal Disruption to Operations

◆ Flexible Learning Options

Teams can complete intensive 1-week boot camps for rapid certification or use self-paced MasterClasses that fit around demanding schedules and critical projects.

◆ Adaptive Learning Technology

Our MasterClass system automatically identifies what each person doesn't know yet, focusing study time only where needed. No more weeks wasted on concepts they've already mastered.

◆ Expert Support Network

Expert Support Network: Your people get direct access to industry-leading instructors when they need guidance, plus peer support through our Discord community.

Zero Administrative Burden

- ◆ No exam voucher coordination required
- ◆ Comprehensive materials remove the need for supplemental study tools
- ◆ Flexible study schedule adjusts to your team's responsibilities
- ◆ Clear progress tracking for each team member
- ◆ Scalable enrollment for teams of any size
- ◆ Streamlined billing and comprehensive reporting
- ◆ Flexible payment terms that work with your budget cycles

Master Instructors

- ◆ Extensive experience of leading security teams
- ◆ Worked directly with organizations like ISC2 to develop their certifications (for example, John Berti, led the development of CCSP), official materials, and exam questions
- ◆ Known across the industry as the most engaging and easy-to-understand teaching

Boot Camp Training

1-Week Intensive Certification Preparation

- ◆ **Live Interactive Sessions**
Taught by expert instructors via Zoom, Monday through Friday with real-time Q&A
- ◆ **Comprehensive Study Materials**
Best-selling guidebooks, focused workbooks designed for live class note-taking, mobile apps, practice exams, and complete access to recorded MasterClass videos
- ◆ **Expert Support**
Direct access to instructors throughout the week and beyond, plus access to our Discord community
- ◆ **Proven Exam Strategies**
Comprehensive training on exam techniques developed over years of working directly with ISC2
- ◆ **All-Inclusive Experience**
Everything you need from start to finish - no additional materials required

Self-Paced MasterClass

Self-Paced Adaptive Learning That Fits Your Schedule

- ◆ **Intelligent Learning System**
Automatically identifies your knowledge gaps and focuses study time only on topics you haven't mastered well enough to pass
- ◆ **Comprehensive Video Training**
Engaging video lessons covering all exam domains with clear, practical explanations that make complex concepts understandable
- ◆ **Adaptive Progress Tracking**
Personalized schedule that adjusts to your progress and work schedule - skip ahead or take breaks, and the system keeps you on track toward your exam goals
- ◆ **Complete Study Materials**
Guidebooks, workbooks, detailed written explanations, and comprehensive coverage of all exam topics
- ◆ **Mobile Learning Apps**
iOS and Android apps with 1,100+ flashcards and thousands of practice questions for studying anywhere, anytime
- ◆ **Realistic Practice Exams**
The most representative practice questions available, modeled closely on actual exam format and difficulty
- ◆ **Visual Learning Tools**
MindMap videos that connect key concepts across all domains, helping you see the big picture
- ◆ **Expert Mentoring**
Weekly live group calls with instructors, plus 1-on-1 mentoring sessions (depending on package level)

What our students say:

“

The Bootcamp was very useful and played an integral part in clearing the exam. I want to thank you both for the structured classes (I am going to preserve the workbook) and more importantly the approach to answering each question.

I learned a lot about how to be a better security professional as well. We all enjoyed your training. It is commendable to see both of you following your passion for teaching and being wonderful at it.

— Deepa B., CISSP, Deloitte

“

Thank you for all your great passion for organizational security (and teaching!) and your arduous efforts to make such a vast material so very structured and consumable in such an easy and wonderful manner!

The classes have definitely rounded my holistic understanding of organizational security and I am taking with me lessons that I will be using throughout my career.

— Ari K., CISSP, Scotia Bank

Turn your team members into (even) better security professionals

Stop gambling with your team's professional development. We take responsibility for your team's success because we understand the real cost of failed certification attempts goes far beyond exam fees.

**Your team deserves training that builds real expertise,
not just exam-passing tricks.**
